

Let's Practice: Multiplying Fractions

Work slowly and carefully. Remember to KISS!

Keep It Simple

Simplify.

1. $\frac{2}{3} \cdot \frac{1}{5} =$

2. $\frac{5}{6} \cdot \frac{3}{7} =$

3. $\frac{5}{18} \cdot \frac{9}{10} =$

4. $\frac{3}{8} \cdot \frac{1}{6} =$

5. $\frac{4}{9} \cdot \frac{3}{16} =$

6. $\frac{3}{14} \cdot \frac{2}{9} =$

7. $\frac{5}{8} \cdot \frac{4}{25} =$

8. $\frac{1}{2} \cdot \frac{1}{3} =$

9. $\frac{6}{8} \cdot \frac{3}{5} =$

10. $\frac{3}{8} \cdot \frac{2}{9} =$
